

altura™

Abdominal Aortic Stent-Graft System

Revolutionary Design, Extraordinary Advantages

Simplified Delivery, Precise Placement

Unique Bilateral D-Stent Design:

- Braided nitinol stent provides exceptional flexibility and vessel conformability
- Two sets of suprarenal anchors on each aortic stent
- No contralateral limb cannulation
- Radiopaque markers for precise positioning and easy septum alignment

Ultra-Low Profile 14F Delivery System:

- Designed to improve access and minimise vessel trauma
- Intuitive five-step delivery system
- Streamlined endograft delivery ensures controlled and accurate placement
- Built-in contrast injection ports simplify the procedure

“Altura’s unique design eliminates gate cannulation, which can be challenging and time-consuming with a traditional stent. Coupled with the retrograde iliac deployment, these innovations make my procedures predictable, extremely precise, and easier.”

*Prof. Dainis Krievins
Vascular Surgeon, Director, Institute of Science, Stradins University
Hospital, Riga, Latvia*

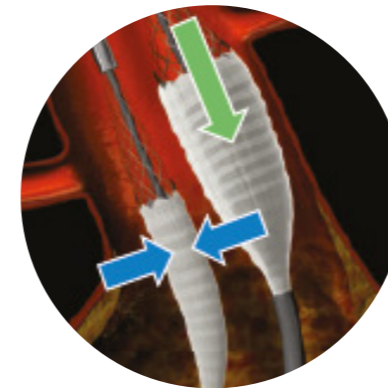

Maximises Sealing Zone:

- Targets each vessel and provides four points of accuracy
- Ability to independently position and offset aortic endografts maximises seal in infrarenal neck

Traditional

Altura™

Repositionable for Accurate Placement:

- Aortic endografts may be repositioned for precise infrarenal placement

Retrograde Iliac Deployment:

- Unique one-step retrograde iliac endograft deployment, for accurate placement at the iliac landing zone

Streamlined Case Planning, Simplified Inventory

The Altura™ Endograft portfolio consists of six product codes, which allows the treatment of a broad range of patients, with simplified case planning and inventory management.

Aortic Endograft (mm)

Aortic Treatment Range*	Endograft Diameter	Suprarenal Stent Diameter	Product Code
18-22	24	29	01-AA-24-090
21-25	27	33	01-AA-27-090
24-28	30	36	01-AA-30-090

Iliac Endograft (mm)

Iliac Treatment Range*	Distal Diameter	Product Code
8-11	13	01-AI-13-065
11-15	17	01-AI-17-065
15-18	21	01-AI-21-065

*Treatment range measured from inner lumen
